

# CUBEX® Tower

Does your veterinary hospital effectively manage controlled substance inventory? CUBEX® Tower improves compliance and mitigates DEA risk.

## Reduce Risk. Drive Profits.

23"W x 54"H x 18"D

### Secure Access

Fingerprint ID, mandatory countback and witness features allow double-lock access within seconds.

### Active Stock

Smaller quantities of drugs, accessible to more staff members.

### Steel Divider

Keeps storage areas separate, compliant with DEA regulations.

### Back Stock

Larger quantities of drugs, accessible to as few people as necessary.

### Expert Inventory Control — The Way You Need It:

- Automatic transaction recordings
- Integration with practice management software
- Accurate invoice reporting for charge loss capture

## Control. Optimize. Relax.

Find the right configuration with drawer types that fit your needs:

### CUBIE Drawers | High Security

- Single-item access for narcotics and other controlled substances
- Variety of container sizes

### Matrix Drawers | Medium Security

- Access to many smaller items with a single drawer-opening
- Ideal for surgical prep — implants, sutures, blades, smaller medication bottles

## Smart Subscription Program

- ✓ Flexible solution bundles
- ✓ No upfront capital investment
- ✓ Complete warranty & 24/7 support
- ✓ Onsite installation & training
- ✓ Cloud-based software included
- ✓ Integration with third-party systems
- ✓ Expansion options as you grow

“CUBEX keeps our inventory lean and our margins high — I know exactly what we need to have on the shelves, and how long it’s been there. I can’t imagine life without it.”
