

Cubex[®] Case Study Deer Creek Animal Hospital

How Cubex has impacted Pharmacy & Supply Profitability at Deer Creek Animal Hospital:

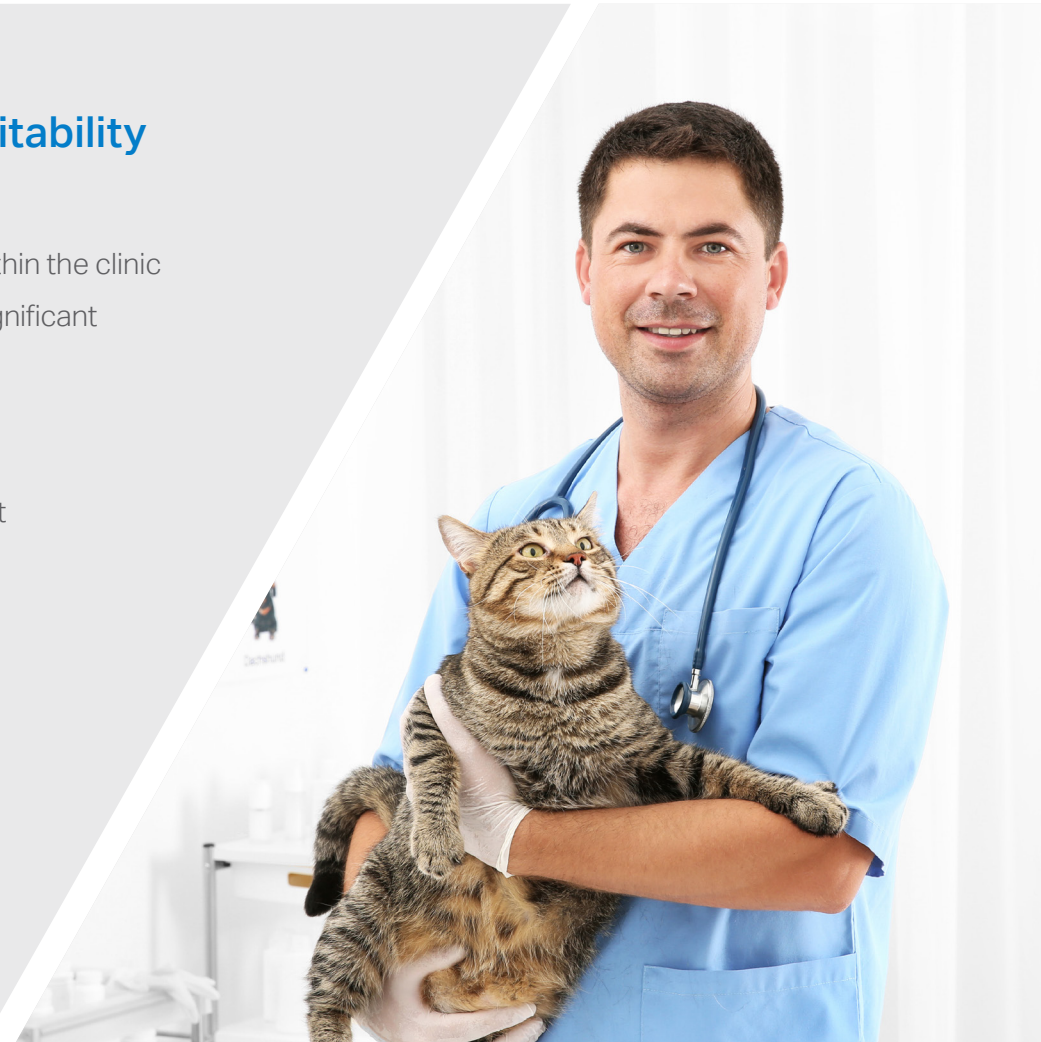

- ✔ Staff and Management have real-time visibility to all materials stocked within the clinic
- ✔ Pharmacy and supply ordering is sent automatically to suppliers, saving significant hours per week
- ✔ Inventory on hand has been drastically reduced, improving cash flow
- ✔ Controlled drugs are more tightly managed in one central location
- ✔ Better access to pharmacy and supply metrics has improved management and efficiency of the clinic

“

Cubex has been a great addition to our hospital. We have drastically decreased our inventory on hand. All of the staff know where to go for all the items that at one point were scattered throughout the hospital. We were able to decrease our inventory management personal as well. We no longer have outdated drugs, and the ordering time has dropped too.

— Daniel Brod, DVM, Co-founder | Deer Creek Animal Hospital
